# Message from the Board of Directors of Feed Our Future

The past financial year has been different. The arrival of the COVID pandemic to our shores brought challenges to every sector and community of our Islands. It also brought pause, a chance to take stock. It brought opportunities.

Feed Our Future has demonstrated our commitment to children in the Cayman Islands since 2011. As a stakeholder in the future of our country and lives of children in our communities we have operated on a model of prudent and transparent financial management to ensure sustainability and an ability to adapt for emergency scenarios such as that brought on by COVID.

When a crisis like the pandemic happened we immediately rose to the challenge.

Over the COVID lock down when schools moved to remote learning Feed Our Future together with the Cayman Islands Government Department of Education and The Kiwanis Club of Grand Cayman worked together to ensure that children did not miss the school meal they relied on. We quickly adopted our model from that of a school meal programme to a home lunch programme. And with the increasing need in the community the level of meal support established at the start of the school year grew from 225 children to 500. Without a solid foundation, long term vision, and an incredibly generous donor base we would not have been able to do this.

The work of feeding the hunger is more important than ever. Currently in the new school year we have increased our budget to meet the high demand already accepting 350 children to our school meal roster. Our three year budget forecast demonstrates a continuation of this trend into 2021 and beyond as such we need to be in a position to continue this level of support indefinitely.

You are a part of our success. You are a lifeline. To every person, corporate, organisation, other charitable association that has backed us over the years and in particular over COVID we thank you. It comes down to this. Because of you, children were fed and will continue to be fed.

Your support of Feed Our Future reflects your values and shared goal to reduce childhood hunger in our beautiful Islands providing children today and future generations healthy nutrition and food needed to grow and thrive.

We are so grateful. Thank you.

**Please extend our thanks to your  
sponsors for continuing kindness  
and generosity to our school  
community.**

“Thank you and your hard working team for what you continue to do for our families, especially during these unprecedented times. Your hard work and dedication along with those of the generous sponsors will never be forgotten.”

# Our Board of Directors, Supporters and Volunteers

Feed Our Future's Board of Directors is comprised of eight leading members of the community: Stacey VanDevelde, Anna Goubault, Frank Balderamos, Jr., Simone Ross, Anthony Lawson, Tabitha Crowley, Daniel Cummings and Jeana Ebanks.

Above this we applaud and sincerely appreciate our individual supporters and volunteers both young and old who make a personal commitment in some way or form in support of our cause, demonstrating the generosity of those in our community.

“

Thank you so much for all of your care and concern. Your support to our school, in providing food for our students, has been invaluable especially under the current circumstances. Looking forward to our continued partnership as we move into a new school year.

”
